

With years of experience behind you are you equipped to lead your career to newer heights?

Leadership for Environment and Development - India

## What is your 'Next' step???

Come join LEAD... become a LEADer of change!!

LEAD (Leadership for Environment and Development) beckons you to join the dynamic global network of 2000 professionals spread over 90 countries representing the academia, bureaucracy, media, corporate and development sectors.

The intensive leadership and development program offers a quintessential blend of classroom and field inputs that enable you hone your skill-set and help you explore your hidden leadership qualities. With its unique modular course content and high-caliber faculty, LEAD's Cohort training truly transforms managers into leaders and has been doing so for past 19 years.

LEAD India invites applications for the 15<sup>th</sup> Cohort, under the 'International Leadership Development Program', which runs parallel in 14 countries.

### Cohort 15 - Overall theme:

#### *'Leadership & Climate Change'*

The program shall offer 3 National sessions and one International Session.

National sessions themes shall focus on the - **Energy, Community and Policy** Dimensions of Climate Change and role of Leadership therein.
